

NORTH CAROLINA AGRICULTURAL AND TECHNICAL STATE UNIVERSITY

POLICY VII. FUNDRAISING: BOARD 1.0

BOARD GIVING POLICY

Policy Purpose: To enhance Board of Trustee giving and increase Board involvement in the University's advancement and fundraising efforts. This policy will also serve to inform potential board members of giving expectations.

Policy: Membership on the Board of Trustees of North Carolina A&T State University commits each member to the Board's goal of a 100 percent annual giving rate. While Board membership does not require any minimum level of giving, each Trustee's individual support should be commensurate with the Board's strong commitment to the University and its programs. Board membership also commits each member to active participation in the University's development and fundraising efforts through the identification, cultivation and solicitation of potential donors as coordinated through the Division of University Advancement.

Each member of the Board will be provided with their individual giving record on an annual basis. A summary report of Board giving will be provided to the Board annually. This report will not include the giving record of individual board members or other identifying elements.
