

Sebastian Health Center Report

Laboratory Receives Accreditation

During a recent inspection by the Commission on Office Laboratory Accreditation (COLA) the Laboratory received accreditation for another two years. COLA is the premier clinical laboratory education, consultation, and accreditation organization. COLA is also a physician-directed organization whose purpose is to promote excellence in laboratory medicine and patient care through a program of voluntary education, consultation, and accreditation.

COLA services are designed to improve clinical laboratories as a whole. Accreditation gives NCA&T State University the assurance and confidence that its health center facility is providing the best patient care. By weaving education throughout all of their service, COLA also works with Sebastian Health Center to prepare the lab to meet regulatory requirements.
