# NCAA Certification

- NCAA staff responded to our Certification Self-Study instrument report on January 13, 2012.
- We responded to issues identified in NCAA staff review on February 8, 2012.
- Committee on Athletics Certification has evaluated our report and our responses, and determined a site visit is not warranted.
- NCAA decision will be released pending resolution of outstanding non-certification issues.

# Football APR Status

- We are currently under the Level Three APR penalty structure in Football, which includes all penalties in Level One and Two.
- We have proposed a waiver to the NCAA for part of our Level Three penalty. We have been allowed to proceed as if our proposed waiver has been approved for spring 2012.
- We will have an in-person review with the NCAA appeal board on April 23, 2012. Any additional penalties will be enforced during the 2013 year.
