North Carolina Agricultural and Technical State University

Dear Earl Hilton,

.....*The staff has determined that the institution demonstrated implementation of the significant and critical elements of the 2012-13 APR Improvement Plan. The staff also determined that the 2013-14 APR Improvement Plan meets the criteria established by the committee for limited resource institutions. Therefore, the institution's baseball, men's basketball, men's outdoor track, women's basketball and women's tennis teams are able to avoid APP penalties and ineligibility for postseason competition using the multi-year APR of at least 910. The football and men's indoor track teams are able to avoid APP penalties and ineligibility for postseason competition using the improvement plus review by earning at least a 930 in the most recent data year and meeting at least one improvement test.....*

The staff requests the institution review its institutional APR report to confirm that these teams no longer show penalties.

Thank you and your team for the work completed and for your continued participation in the APR Improvement Plan process. Please contact me via email or by phone at 317/917-6506 if you have any questions, comments or concerns.

Sincerely,

Katy Yurk
Associate Director of Academic and Membership Affairs
