

## Housing and Residence Life Designated Summer Residence Halls

---

Due to some major construction occurring along John Mitchell Drive this summer, adjustments has been made for the buildings used this summer. The original residence halls designated to house summer groups could possibly cause a liability. To ensure the safety of our students, staff, and visitors, we are requesting to change the Cooper Hall location for New Student Orientation males to Aggie Suites F.

For the Summer Conference Groups, we selected Village 4 (Blair Hall). This will be near the construction location and Village 3 (McCain Hall). Students, staff and visitors will not have to travel along the John Mitchell Drive construction area located near Cooper and Village 4 (Blair Hall).

Below are the buildings:
