MENTAL HEALTH

Strengthening Student Mental Well-being

- > Be intentional – what do we want to accomplish, feel, and live; then, monitor the actions.
- > Take responsibility - about choices and decisions. Thinking patterns.
- > Acceptance of Reality – helps with coping, adapting, and feeling empowered
- > Setting limits and boundaries – being clear and objective of expectations from self/others.
- > Sleep. Think. Eat. Move - Foundational pieces of mental well-being.
- > Connect - the value of relationships and communications (listening, trusting, respecting, and making time for others). Science shows less stress, depression, illness, and longer life.
